

Report Pages

Summary: Comparison summary for all programs for years selected (set by slicer at the bottom of the report). Hover over a value to see a tool tip with a report of all comparison values.

Detail: A table showing all the comparison data for a selected program and year

Longitudinal: Graphs showing the institutional and comparison values for the past several cycles. If multiple programs are selected, averages of institutional values are shown along with averages of comparison group values.

Comparison Groups

Carnegie: Programs in institutions with the same Carnegie class as Southern

Highest Degree: Programs with same highest degree awarded (Bachelors, Masters, Doctorate/Professional)

Degree Mix: Programs offering the same percentage of UG degrees compared to all degrees (<50%, 50 - 75%, 75-100%)

Summary Page Color Codes

% of Median

- For all categories except "FTE Student / FTE Faculty":
- If the institutional value is *below the median*, the color is **green**.
 - If the institutional value is *in the top quartile*, the color is **red**.
- For "FTE Student / FTE Faculty":
- If the institutional value is *above the median*, the color is **green**.
 - If the institutional value is *in the first quartile*, the color is **red**.

Institutional Values

- For all categories except "FE Student / FTE Faculty":
- If the institutional value is *below the median* for at least two of the three comparison groups, the color is **green**.
 - If the institutional value is *in the top quartile* for at least two of the three comparison norm types, the color is **red**.
 - Otherwise, the color is **orange**.
- For "FTE Student / FTE Faculty":
- If the institutional value is *above the median* for at least two of the three comparison norm types, the cell is colored **green**.
 - If the institutional value is *in the first quartile* for at least two of the three comparison norm types, the cell is colored **red**.
 - Otherwise, the cell is colored **orange**.
